

Yehia Abdelkarim Soliman

Frontend Web Developer

📍 Sherouk City, Cairo | ✉ yehiaabdelkarimsoliman@gmail.com | ☎ 01270006230 |  [Github](#) |  [LinkedIn](#)

Profile

Analytical and solution-driven Frontend Developer with Basic Backend Skills. Experienced in developing web applications using Next.js, React.js, Material UI, Redux, Zustand, TypeScript, JavaScript, Tailwind CSS, Node.js, Express.js, HTML5, and CSS3. Passionate about leveraging strong problem-solving skills and keen attention to detail to build engaging, responsive user interfaces across browsers (Safari/iOS – WebKit, Firefox – Gecko, Chrome/Edge – Blink).

Professional Experience

● Potential Soft | December 2024 – May 2025 (Internship) | June 2025 – Present (Full-Time)

- Frontend web Developer (Next.js)
- Migrating HTML, CSS, and JavaScript projects to modern stacks using Next.js, React.js, TypeScript and Tailwind CSS for improved scalability and performance. This includes refactoring codebases, converting static elements into reusable React components, implementing modern routing and state management, and upgrading CSS to SCSS for enhanced styling and to leverage more powerful styling capabilities and streamline development workflows.
- Enhancing user experiences by adding new features, pages and improving responsiveness across all devices.
- Debugging and refactoring code to ensure optimal performance and maintainability.

Projects

● My Personal Portfolio

[Site](#)

[Code](#)

- Designed, Developed, and Deployed a Multi-Page Portfolio on Vercel using Next.js, Tailwind CSS, and Redux.
- Support Dark/Light mode toggle, English/Arabic language switch, and project detail pages opening in new tabs.
- Showcased my projects, skills, education, certifications, and about section, tested responsive design on PC, Mac, iOS, and mobile devices.

● E-Commerce (Family Shop)

[Site](#)

[Code](#)

- Designed, Developed, and Deployed a responsive E-commerce website using React.js, React Router, and API integration.
- Implemented product browsing, add-to-cart, cancel order features, and user authentication.
- Supported full product listings in Arabic and English, Dark/Light mode, and tested on PC, Mac, iOS, and mobile devices.

● YouTube Clone

[Site](#)

[Code](#)

- Designed, Developed, and Deployed a YouTube clone using React.js, React Router integrating the official YouTube Data API.
- Support video streaming, real-time search (Text and Voice), watch later, add to playlist, and recommended channels.
- Implemented Dark/Light mode, responsive design, and support for Live, Gaming, Music categories, Terms of Use, and About pages.

● Jop Application Form

[Site](#)

[Code](#)

- Designed, Developed, and Deployed a job application form using React.js, Vite to collect detailed applicant information.
- Fields for personal info, skills, education, experience, reference, supports multiple submissions, and PDF CV uploads.
- Saved user data, and ensured a responsive, user-friendly experience on PC, Mac, iOS, and mobile devices.

● Notes Keeper

[Site](#)

[Code](#)

- Designed, Developed, and Deployed a Notes Keeper using React.js and Vite, inspired by Google Keep's UI and features.
- Enabled note creation, editing, colour customization, and drag-and-drop functionality to reorder notes.

Education, Courses and Certificates

- Bachelor's Degree in Engineering, Ain Shams University. 2023.
- React.js and Next.js Course [Link](#). The Complete Full-Stack Web Development Bootcamp Course [Link](#). TypeScript Course [Link](#). The Git Bootcamp Course [Link](#). My [Certificates](#)

Technical Skills

HTML5 | CSS3 | JavaScript | React.js | Next.js | Redux | Zustand | TypeScript | SCSS | Tailwind CSS | Bootstrap | Git | jQuery | Jira | API Integration | Agile | Node.js | Express.js | PostgreSQL | MongoDB | VS Code, IntelliJ | Vite, Webpack.

Languages

Arabic: Native | English: Advanced.
